Re: MB DOCKET No.15-149

Mr, Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washinton, DC 20554

Dear Chairman Wheeler:

The Warren County Municipal League is a non-partisan, non-profit membership organization that works toward better municipal government throughout Warren County, Ohio. The League represents seven cities and 8 villages and the county continues to be one of the fastest growing regions in Southwest Ohio. Through collaboration and partnerships with other municipalities, associate governments, affiliate non-profit and businesses, the League's basic goal is to strengthen our cities and municipalities through unity and cooperation.

One of our long time and active members, Time Warner Cable, is in the process of merging with Charter Communications and Bright House Network to form "New Charter". The new company formed by the plan merger will combine the best attributes of each of the three companies. Customers and businesses in our area should benefit from increased Internet speeds, and upgraded all- digital infrastructure and improved customer service with local jobs being brought back to the region.

I believe that the new company will help support our Chamber's mission of "Linking Local Communities" by offering high quality products to the businesses, local governments and consumers in Warren County. We value our long term relationship with local management and look forward to continuing to work with the company as they move forward with their merger.

Thank you for your consideration in supporting the merger of New Charter

Sincerely,

*Mary Ann Thompson, Executive Director
Warren County Municipal League*
